ABOUT ME

First-year B.Tech Computer Science student at IIIT Una with a strong interest in cybersecurity, robotics, and autonomous systems. Experienced in Python-based development and research-oriented problem solving through a prior internship. Motivated to explore secure and intelligent systems, and seeking a research internship opportunity to contribute to real-world projects while strengthening core technical and research skills.

SKILLS

- Python Programming
- C/C++ Basics Basic
- Cybersecurity
- Concepts Linux Basics
- Networking Basics
- Embedded Systems
- Basics

LANGUAGE

- English
- Punjabi
- Hindi

EDUCATION

Bachelor Of Technology 2025 - 2029(Expected)

Indian Institute Of Information Technology , Una

EXPERIENCE

Research Intern -Yescity Startup *Nov 2025-Jan 2026*

- Worked under research team
- Learned research-based problem solving
- Participated in collaborative technical environment

POSITIONS & RESPONSIBILITIES

Coordinator - MERAKI Technical Fest, IIIT Una

- Coordinated technical events and student teams
- Managed event planning and execution
- Worked in team-based high responsibility environment

Active Member -7 Student Clubs, IIIT Una

- Actively involved in technical and extracurricular activities
- Developed teamwork, leadership and communication skills
- Participated in organizing and managing student initiatives

WORKSHOPS & TECHNICAL EXPOSURE

Drone Workshop - IIIT Una x NIT Kurukshetra Collaboration

- Learned fundamentals of UAV systems and drone architecture
- Studied drone components: motors, ESC, flight controller, sensors
- Understood flight principles (lift, roll, pitch, yaw)
- Gained basic exposure to drone operation and applications
