# VANSHIV GARG

AI and Data Science Intern Candidate | B.Tech CSE, IIIT Una

## CONTACT

Sangrur, Punjab 148025
+91 84376-56156
25btcs147@iiitu.ac.in

## WEBSITES, PORTFOLIOS, PROFILES

- linkedin.com/in/vanshivgarg
- github.com/Vanshiv46
- vanshiv.engineer

## LANGUAGES

English, Hindi, Punjabi

## SKILLS

- **AI/ML:** Machine Learning, Deep Learning, PyTorch, RAG systems, Temporal Action Segmentation
- **Data:** Python, data preprocessing, data analysis, data visualization, spreadsheets, reporting
- **Tools and Languages:** Git, GitHub, Linux, C/C++, cybersecurity basics
- **Web:** React.js, JavaScript, HTML, CSS, Tailwind CSS, Vite
- Analytical thinking
- Problem solving
- Report writing
- Teamwork and collaboration
- Time management

Second-year B.Tech CSE student at IIIT Una seeking an AI and Data Science internship. Research internship experience in deep learning (PyTorch) at IIT Guwahati and IIT Mandi, with hands-on work in Python, data preprocessing, data analysis and reporting. Built AI projects including a RAG-based knowledge retrieval system and a water-safety monitoring system. Strong analytical and problem-solving skills, with good communication and teamwork.

## WORK HISTORY

**Research Intern *Indian Institute of Technology (IIT) Guwahati*, Remote**

July 2026 – September 2026

- Worked on Temporal Action Segmentation for understanding human actions in videos
- Developed and trained deep learning models in PyTorch
- Assisted research experiments in robotics and artificial intelligence, documenting observations and experimental outcomes
- Collected and organized technical literature to support ongoing project reviews and problem framing
- Preprocessed datasets for model training, ensuring clean inputs and consistent file structure
- Supported development of Python-based scripts for data analysis and experiment automation
- Tested robotics workflows and recorded system behavior during controlled trial runs
- Collaborated with team members to troubleshoot hardware and software issues in lab setups
- Prepared presentation materials summarizing findings, methodology and next-step recommendations

**Research Intern *Centre for AI and Robotics (CAIR), IIT Mandi*, Mandi, Himachal Pradesh, India**

June 2026

- Gained hands-on exposure to AI, robotics and autonomous systems research
- Collaborated with team members for successful completion of research projects on time

**Campus Ambassador *Google Gemini*, Remote**

April 2026 – June 2026

- Promoted Gemini features through campus events, classroom visits and peer-to-peer conversations

**Artificial Intelligence Intern *Codec Technologies India*, Remote**
March 2026 – May 2026

- Assisted in data preprocessing for machine learning workflows using Python and common AI libraries

**Research Intern *Yescity Startup*, Remote**
November 2025 – January 2026

- Completed research, compiled data and assisted in timely reporting
- Updated spreadsheets and produced timely reports

## EDUCATION

2025 – Expected 2029
**Bachelor of Technology, Computer Science and Engineering**
**Indian Institute of Information Technology (IIIT) Una**, Una, Himachal Pradesh, India

## LEADERSHIP AND RESPONSIBILITIES

**Co-Coordinator, MERAKI 2026 (Technical Fest), IIIT Una**

- First first-year student appointed to this role
- Managed Hackathons and Robo Drive alongside senior organizing teams
- Coordinated event planning, logistics and cross-team execution

**Co-Coordinator, Mridang 2026 (Cultural Fest), IIIT Una**

**Social Media Team Lead, IIIT Una**

**Member, Social Media Team, IIITians Network** | Oct 2026 – Present

**Executive Member, All 7 Student Clubs, IIIT Una**
Technical and extracurricular clubs spanning coding, robotics and events

## PROJECTS

**AquaGuard AI** – Python-based AI system for water safety monitoring

- Developed an AI system to analyse water-safety data and flag unsafe conditions

**KnowFlow AI** – RAG-based AI knowledge retrieval system (Python)

- Built an end-to-end application that retrieves answers from custom knowledge sources

**BDH Sparse Brain Visualization** – HTML

- Built a visualization tool for neural architecture

**Personal Portfolio (vanshiv.engineer)** – React, Vite, Tailwind CSS

- Designed, built and deployed a responsive personal website as a live production project

**SecurePass Tool** – Python password security and management utility

- Built a utility for password security and management

All projects: github.com/Vanshiv46
